

A photograph of a modern restaurant interior. The floor is covered in a black and white checkered tile pattern. Several wooden tables are arranged in a row, each with a black leather-upholstered wooden chair. Each table is set with a glass of water, a small white plate, and a napkin. The walls are made of light-colored concrete, and large windows are visible in the background. Black pendant lights hang from the ceiling, illuminating the space.

Specifications

Designers

Paged, a member of the Paged capital group, is one of the biggest companies within the Polish furniture industry.

Our furniture is designed for both contract and residential markets, and can be used to furnish the interiors of dining rooms, living rooms, bedrooms and studies, as well as restaurants, pubs, and cafés. With a long established tradition in steam bending methods, Paged Meble utilizes its extensive knowledge and advancements in technology to offer original furniture solutions.

Our three modern manufacturing plants each specialise in different skills, which allows us to respond quickly to the ever changing needs of our customers. At the heart of the Paged Meble company, is our factory in Jasienica, where the world's unique bentwood

furniture production originates. Established in the 19th Century, the factory based its production on Michael Thonet's invention – 'Chair No. 14' – which carved its way to global success, taking beech furniture with it. Since then, bentwood furniture has captivated users with its elegant and graceful shape, enabling versatile designs which remain ever popular despite new emerging trends.

With modern machinery and the best materials at our disposal, Paged Meble infuses innovation in every area of its operation. Combine this with our long heritage in bentwood furniture manufacturing, we can ensure premium quality across all of our products.

A photograph of a modern dining room. In the foreground, a round table with a dark, reflective top is surrounded by six white armchairs with dark wood legs. The table is set with white plates, glasses, and a small vase of white flowers. In the background, several other similar tables are set up, and a long dark booth runs along the wall. Four framed landscape paintings are hung on the wall. The floor is covered in a grey carpet.

A photograph of a modern bar interior. The walls are covered in vertical wood paneling, with a decorative carved wood band running horizontally across the middle. The bar counter is made of light-colored stone or concrete, and the base of the bar is also decorated with carved wood. Several dark wooden bar stools are lined up along the bar. In the background, there are shelves stocked with bottles of alcohol. The floor is made of light-colored tiles. The lighting is warm, with several cylindrical pendant lights hanging from the ceiling. A large glass window on the right side of the image shows the exterior of the building.

The image shows three wooden tables against a plain white background. On the left is a round table with a light brown, textured top and four thin, light-colored wooden legs. To its right is a smaller, similar round table. On the far right, a portion of a square table with a similar top and legs is visible. A black circle is superimposed on the left side, containing the text 'Tables & Others'.
